- Graduate with distinction

---

### Activity & Last Project

#### **ITERA Polyclinic Information System (March 2024 – July 2024)**

- Identified functional requirements for the system in collaboration with ITERA Polyclinic stakeholders.
- Designed an intuitive user interface using Tailwind CSS.
- Developed a database structure to support features like patient medical records, prescriptions, and medication inventory.
- Implemented backend features with Laravel and integrated all system components seamlessly.

#### **Griselda Tutoring Website (December 2023 – January 2024)**

- Designed and developed the user interface using Next.js and Tailwind CSS.
- Ensured application accessibility across various devices.
- Integrated the interface with backend services for dynamic functionality.

#### **Pos Yang's Grosir (September 2023 – December 2023)**

- Designed and built the user interface using Next.js and Tailwind CSS.
- Ensured cross-device accessibility for the application.
- Connected the interface to the backend for transaction and inventory data management.

### **Internship at Dinas BMBK Lampung Province (July 2023 – August 2023)**

- Collaborated with a team of four to develop a budget management system for road maintenance in Lampung Province.
- Designed the system interface using Bootstrap and Laravel.
- Developed modules for road data input and budget calculation reports.
- Assisted in document management with Microsoft Word and Excel.

---
